Possibility of Drug-Drug Interaction through Prescription Analysis at the National Institute of Cardiovascular Disease (NICVD), Bangladesh

Published On: December 30, 2016 | Pages: 007 - 010

Author(s): Mohammad Borhan Uddin, NiluferYeasmin Nipa, Shamim Ahmed, Bushra Haider, Shakura Binte Hasan and Abu Yousuf*

Introduction: Medicaments are the ultimate choice of treatment when lifestyle and diet changes are unable to serve the preventive strategy for cardiovascular diseases. Contradictorily, detrimental Drug–Drug Interactions (DDI) between cardiovascular drugs with the non-cardiovascular drugs may lead to alterations in the therapeutic responses, and pose a grave health con ...

Drug Utilization Study of Drugs of Complementary and Alternative System of Medicine in Patients with Chronic Painful Musculo-Skeletal Conditions

Published On: November 24, 2016 | Pages: 001 - 006

Author(s): Vikas Dhikav*, Sonia Mor, Wasifa Muzaffar, Nidhi Agarwal, Sheikh Raisuddin and Kuljeet Singh Anand

Background: Use of drugs of Complementary & Alternative System of Medicine (CAM) is believed to be common. However, data on its prevalence is not known. Similarly, in patients with chronic diseases (e.g. chronic pain), there is no information about its usage. Additionally, it is believed that those who are not being relieved/satisfied with drugs of mainstream medicine ...
